PROPOSALS BY STOCKHOLDERS

Any proposal by a stockholder intended to be presented at the 1996 Annual Meeting must be received at the Company's office not less than 120 days prior to November 1, 1996. Therefore, any such proposal related to the 1996 Annual Meeting should be received by July 5, 1996, for inclusion in the Company's Proxy Statement and form of Proxy related to that meeting.

3

1. ELECTION OF DIRECTORS

Nine directors are to be elected, each to hold office until his successor is elected and qualified or until his earlier death, resignation or removal.

Unless authority to do so is withheld by the stockholder, each Proxy executed and returned by a stockholder will be voted for the election of the nominees hereinafter named. Directors of the Company having beneficial ownership derived from presently existing voting power, as of October 11, 1995, of approximately 0.3% of the Company's Common Stock have indicated that they intend to vote for the election of all nominees. If any nominee withdraws or for any reason is unable to serve as a director, the persons named in the accompanying Proxy either will vote for such other person as the management of the Company may

nominate or, if the management does not so nominate such other person, will not vote for anyone to replace the nominee. The management of the Company knows of no reason that would cause any nominee to be unable to serve as a director or to refuse to accept nomination or election.

VOTE REQUIRED FOR ELECTION, QUORUM AND TABULATION OF VOTES

Under the Company's By-laws, a majority of the shares of Common Stock issued and outstanding and entitled to vote at any meeting of stockholders, present in person or by proxy, constitutes a quorum for the transaction of business at the meeting. Brokers holding shares for beneficial owners must vote those shares according to the specific instructions they receive from the owners. If specific instructions are not received, brokers may vote the shares in their discretion only as to routine matters. Brokers have discretionary authority to vote in the election of directors. Absent specific instructions from the beneficial owner as to non-routine matters, the New York Stock Exchange precludes its member brokers from voting. The missing votes of non-routine matters are known as "broker non-votes." For purposes of determining the presence or absence of a quorum at the Annual Meeting, abstentions and broker votes on routine matters are counted; thus, broker non-votes are irrelevant for quorum purposes.

THE AFFIRMATIVE VOTE OF A PLURALITY OF THE VOTES CAST AT THE ANNUAL MEETING IS REQUIRED FOR THE ELECTION OF EACH NOMINEE. ABSTENTIONS AND BROKER NON-VOTES ARE NOT COUNTED AS VOTES CAST EITHER FOR OR AGAINST ANY NOMINEE.

The Board of Directors unanimously recommends that the stockholders vote FOR election of the nominees named below.

INFORMATION CONCERNING NOMINEES

Subject to the foregoing, Proxies will be voted for the election of the following nine nominees as directors of the Company, each of whom has engaged in the principal occupation indicated below for at least the past five years.

-
- (1) Cash bonuses are listed in the fiscal year earned, but were paid partially or entirely in the following fiscal year. For fiscal 1995 and 1994, the "Bonus(\$)" column includes any bonus earned and paid in cash for fiscal 1995 and 1994 performance. Under the terms of the 1994 Long-Term Management Incentive Plan, certain participants may elect to receive all or a portion of their awarded bonus in the form of restricted stock. These amounts (including the 20% additional awards in restricted stock provided as a deferral incentive) are reflected in the "Restricted Stock Award(s)" column for fiscal 1995 and 1994, although the restricted stock awards were not made until the following year.
 - (2) The stated amounts exclude perquisites and other personal benefits because the aggregate amounts paid to or for any executive officer as determined in accordance with the rules of the Securities and Exchange Commission relating to executive compensation did not exceed the lesser of \$50,000 or 10% of salary and bonus for fiscal 1995, 1994 and 1993.
 - (3) The "Restricted Stock Award(s)" column reflects the value, as of the date of grant, of the restricted stock received by the named individuals. Mr. Clement, Mr. Small and Mr. Albert received, respectively, 4,998; 2,123 and 1,004 shares of restricted stock in lieu of \$56,438; \$23,975 and \$11,340 in cash for fiscal 1994. Mr. Clement received 3,010 shares of restricted stock in lieu of \$34,185 in cash for fiscal 1995. Dividend income, if any, will be paid on the restricted stock at the same rate as paid to all stockholders. With respect to fiscal 1994 and fiscal 1995, restrictions will lapse 3 years and 30 months, respectively, from the date the restricted stock was awarded. With respect to the 1995 and 1994 fiscal years, the number of shares of restricted stock received in lieu of cash was determined by multiplying the amount of the foregone cash bonus by 1.2 (as a deferral incentive) and dividing that product by the average market price of the Company's Common Stock for the month of December 1993 (\$13.55) or June 1994 (\$13.63). At the end of the 1995 fiscal year, Mr. Clement, Mr. Small and Mr. Albert, respectively, had an aggregate of 4,998, 2,123 and 1,004 shares of restricted stock, having an aggregate value on that date

6

of \$69,972, \$29,722 and \$14,056. The Company awarded no restricted stock during the 1993 fiscal year. During the 1995, 1994 and 1993 fiscal years, the Company maintained no long term incentive plan, as defined in applicable Securities and Exchange Commission rules. The Company issued no options to executive officers during fiscal year 1993. All options granted to the named executive officers in fiscal 1995 and 1994 were awarded pursuant to the Offshore Logistics, Inc. 1989 Incentive Plan (the "1989 Plan"), have a ten-year term, have an exercise price equal to the fair market value (as defined in the 1989 Plan) of the Company's Common Stock on the grant date, and include tandem grants of SARs, which permit the options to be surrendered in exchange for shares of stock, or a combination of cash and stock representing the difference between the option exercise price and the fair market value of the shares on the date of exercise. All of the options granted to the named executives became exercisable one year after the grant date.

- (4) The stated amounts consist of the Company's matching contributions made pursuant to the Company's Employee Savings and Retirement Plan (the "401(k) Plan"), all of which are 100% vested, and the cost to the Company for premiums on Company-owned life insurance policies that the Company maintains for certain key employees, including Messrs. Clement, Small, Albert and Milke. All amounts stated for Messrs. Murphy, Albert and Milke are comprised exclusively of the Company's matching contributions pursuant to the 401(k) Plan. During the fiscal year ended 1995, the expense to the

Company for the life insurance premiums was \$5,025 and \$5,097 for Messrs. Clement and Small, respectively, and the Company's matching contribution to the 401(k) Plan was \$6,450 and \$4,110 for Messrs. Clement and Small, respectively.

OPTION/SAR GRANTS IN LAST FISCAL YEAR

The following table shows, as to the named executive officers, information about option/SAR grants during the 1995 fiscal year.

INDIVIDUAL GRANTS

NAME	NUMBER OF SECURITIES UNDERLYING OPTIONS/SARS GRANTED (#) (1)	% OF TOTAL OPTIONS/SARS GRANTED TO EMPLOYEES IN FISCAL YEAR	EXERCISE PRICE (\$/SHARE)	EXPIRATION DATE	POTENTIAL REALIZABLE VALUE AT ASSUMED ANNUAL RATES OF STOCK PRICE APPRECIATION FOR OPTION TERM (2)	
					5%	10%
James B. Clement.....	0	0%	n/a	n/a	n/a	n/a
George M. Small.....	20,000	22%	\$13.00	7/12/04	\$163,513	\$414,373
Ralph B. Murphy.....	10,000	11%	\$13.00	7/12/04	\$ 81,756	\$207,187
Hans J. Albert.....	15,000	17%	\$13.00	7/12/04	\$122,634	\$310,780
Drury A. Milke.....	10,000	11%	\$13.00	7/12/04	\$ 81,756	\$207,187

(1) These awards were made pursuant to the 1989 Plan, have a ten-year term, an exercise price equal to the fair market value (as defined in the 1989 Plan) of the Common Stock on the grant date and become exercisable one year after the grant date. The option exercise price is payable in cash. The option grants include tandem grants of an equal number of SARs, which entitle the optionee to surrender unexercised stock options for stock, or a combination of stock and cash, equal to the excess of the fair market value of the surrendered shares over the option price of such shares; however, no more than 35% of this amount may be paid in cash. Under the Plan, if an employee resigns following a reduction in his authority or duties or is terminated other than for cause within one year preceding or three years following a change in control of the Company (as defined in the 1989 Plan), all outstanding options and SARs are immediately exercisable upon his resignation or termination.

(2) The dollar amounts shown in these two columns have been derived by multiplying the exercise price by the annual appreciation rate shown (compounded for the term of the options), by multiplying this product by the number of shares covered by the options, and then subtracting the aggregate exercise

price of the options. The dollar amounts set forth under this heading have not been discounted to present value. Further, the dollar amounts are the result of calculations at the 5% and 10% rates set by the Securities and Exchange Commission and therefore are not intended to forecast possible future appreciation, if any, of the price of the Common Stock of the Company.

AGGREGATED OPTION/SAR EXERCISES IN LAST FISCAL YEAR AND
FISCAL YEAR END OPTION/SAR VALUES

The following table shows, as to the named executive officers, the aggregate option exercises during fiscal year 1995 and the values of unexercised options as of June 30, 1995.

NAME	SHARES ACQUIRED ON EXERCISE (#)	VALUE REALIZED(\$)	NUMBER OF SECURITIES	VALUE OF UNEXERCISED

Drury A. Milke.....	0	\$ 0	22,500	\$ 89,063
			10,000	\$ 10,000

(1) The dollar amounts shown in this column represent the aggregate excess of the market value of the shares underlying the unexercised in-the-money options as of June 30, 1995, over the aggregate exercise price of the options.

EMPLOYMENT CONTRACTS AND TERMINATION, SEVERANCE AND CHANGE-OF-CONTROL ARRANGEMENTS

In February 1989, the Company entered into severance agreements with Messrs. Clement and Small to facilitate continuity of management in the event of any actual or threatened change of control of the Company. The agreements take effect in the event of a change of control (as defined in the agreements) of the Company and have a term of three years following the change of control. The agreements provide that if the executive's employment is terminated other than for cause or if the executive resigns following a reduction in his duties, compensation, or benefits, the executive is entitled to a lump sum payment equal to the product of his aggregate annual compensation times a fraction, the numerator of which is the number of months remaining under the severance agreement and the denominator of which is twelve. Based on compensation as of the end of fiscal 1995, the maximum total amount payable under these agreements is approximately \$1,052,000.

In addition, under the terms of the Offshore Logistics, Inc. 1989 Incentive Plan (the "1989 Plan"), if within the one-year period preceding or the three-year period following a change in control of the Company (as defined in the 1989 Plan), a participant's employment is involuntarily terminated other than for cause, or he resigns following a diminution in the nature or scope of his authorities or duties, all outstanding options and SARs held by the executive become immediately exercisable.

Under the terms of the 1994 Long-Term Management Incentive Plan (the "1994 Plan"), if a change in control (as defined in the 1994 Plan) occurs, all outstanding options and SARs held by the employee participant become immediately exercisable; the restrictions and deferral limitations (if any) applicable to any

then outstanding shares of Restricted Stock, Deferred Stock or other stock based awards made pursuant to the 1994 Plan (if any) become free of all restrictions, fully vested and transferable to the full extent of the award. Also, under the 1994 Plan, for a sixty-day period following a change in control (as defined in the 1994 Plan), unless the Committee that administers the Plan determines otherwise at the time of the award, the participant has the right to elect to surrender to the Company all or part of the stock options in exchange for a cash payment equal to the spread between the change in control price (as defined in the 1994 Plan) and the option exercise price.

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

The Compensation Committee is comprised exclusively of nonemployee directors and is responsible for formulating and making recommendations to the Board of Directors with regard to:

- the Company's executive compensation policies and programs, and
- specific salary and incentive awards to executive officers.

COMPENSATION POLICY

In designing and implementing its executive compensation program, the Company follows a long-standing philosophy that management pay should be directly and substantially tied to the achievement by the Company of its performance objectives. A corollary principle guiding the Company's compensation program is that stock-based compensation should be an integral part of the program to align management incentives with share price. The Company also operates under the principle that short-term and long-term elements of compensation should be balanced. Finally, the Company believes that, to excel, it must continue to attract and retain highly talented and motivated employees at all levels, especially the senior executives.

Accordingly, the Company's overall compensation policy is to provide a competitive compensation package designed to attract, motivate and retain key executive officers and to tie executive pay to overall Company performance and return to stockholders. The Company's executive compensation program consists of base salary, annual incentives and long-term incentives. Executive officers also participate in a 401(k) plan, a medical plan and other benefit plans available to employees generally.

The compensation packages provided to the Chief Executive Officer and the other executive officers for the 1995 fiscal year were based in part on the recommendations of the outside consulting firm hired by the Company in 1993. The consulting firm met with Company management to discuss the strategic direction of the Company and the Company's objectives for its executive compensation programs. The consulting firm prepared a study based on several published executive compensation surveys conducted at different times that reviewed the compensation of executives at companies with revenues similar to those of the Company (hereafter, the "Compensation Study"). The group of companies reflected in the Compensation Study includes some of the peer companies set forth in the Stock Performance Graph on page 12 of this Proxy Statement.

1. Base Salary

The Committee reviews base salaries annually. Individual performance reviews are generally conducted once a year and are used in conjunction with the Company's comparison of salaries paid by its most direct

competitors, the Compensation Study and an analysis of expected economic conditions in the oil and gas service industry to determine whether an employee's base salary will be modified. Salary increases in the 1995 fiscal year were based on individual performance and the Company's achievement of its profit goals, as well as salaries paid by Company competitors (including the companies in the Compensation Study). In each of the last several years, the Chief Executive Officer initially has recommended to the Committee salary levels for the upcoming year for all Company officers other than himself. The Committee has reviewed the Chief Executive Officer's recommendations and industry comparisons and made its salary recommendations to the full Board. The Board approved all of the Committee's recommended salary levels for the 1995

fiscal year.

The Company believes that the salaries of the executives named in the Summary Compensation Table for the 1995 fiscal year were at or near the median of the peer group considered by the Committee to constitute the Company's most direct competitors for executive talent. The Compensation Committee believes that not all of the companies in a peer group established to compare stockholder returns are necessarily representative of the companies competing with the Company for executive talent. Thus, the peer group used by the Company to compare compensation is a sub-group of the companies included in the peer group index in the Stock Performance Graph on page 12 of this Proxy Statement.

2. Annual Incentives

Cash bonuses provide an annual incentive to the Company's executives. For the 1995 fiscal year, bonus amounts to executives were determined according to the terms of the Annual Incentive Plan approved by the stockholders in 1994. This element of the compensation program is designed to link executive pay to objective measures of the performance of the Company. The Company performance measures established by the Committee to determine bonus levels for the 1995 fiscal year were return on revenues, return on equity, earnings per share growth and revenue growth, each weighted equally at 25%. Threshold, target and maximum levels of Company performance were established for each performance measure, based on historical results, budgets and growth goals established by the Company. For the 1995 fiscal year, the Company achieved 53% of the aggregate maximum level of performance on these four performance measures. Each of the employees who was designated to participate in the Annual Incentive Plan, including the executive officers, received a bonus equal to the appropriate percentage of his or her base salary set by the Committee for incentive opportunity.

In accordance with the restricted stock payment alternative under the 1994 Plan, also approved by the stockholders in 1994, the executive officers may elect to receive all or any part of their bonuses in shares of Restricted Stock. The Committee believes that this application of Restricted Stock is an excellent vehicle for expanding the stock ownership of the executive officers and will further deepen the executive officers' commitment to the long-term objectives and performance of the Company and their identification with stockholder interests.

3. Long-Term Incentives

The Compensation Committee believes that granting stock options/stock appreciation rights is the most appropriate method of motivating and rewarding executive officers for the creation of long-term shareholder value. The Company has established a policy of awarding stock options and stock appreciation rights based upon continuing progress of the Company and on individual performance by its executives. The Committee uses only subjective and informal measures of Company and individual performance in deciding whether and, if so, how many options to award. Typically, stock options are granted annually. In July 1994, options were awarded to the executive officers other than the Chief Executive Officer, including the following grants to the executive officers named in the Summary Compensation Table: George M. Small--20,000; Ralph B. Murphy--10,000; Hans J. Albert--15,000; and Drury A. Milke--10,000. All awards shown in the Summary Compensation Table were made at fair market value at the time of grant so that holders will benefit from such grants only when, and to the extent, the stock price increases after the date of grant.

COMPENSATION OF CHIEF EXECUTIVE OFFICER

James B. Clement has been employed by the Company since 1976 and was elected President and Chief Operating Officer in 1986, Chief Executive Officer in 1987 and Chairman in 1995. The Compensation Committee seeks to align Mr. Clement's base salary and annual incentives at a reasonable level in comparison to the

other companies in the Company's self-selected compensation peer group. In setting Mr. Clement's salary and bonus for the fiscal year ended 1995, the Committee reviewed the performance of both Mr. Clement and the Company in fiscal 1994 and 1993, as well as the recommendations of the compensation consulting firm in its Compensation Study. The Committee, however, considered measures of Company performance only in a subjective and informal manner in fixing Mr. Clement's base salary. The Committee held Mr. Clement's base salary constant for the 1995 fiscal year primarily because it anticipated depressed market conditions for the Company's services during the fiscal year.

Under the Annual Incentive Plan, Mr. Clement's incentive opportunity for fiscal 1995 was 75% of his base salary. Since the Company performed at the 53% level on the four performance measures, namely, return on revenues, return on equity, earnings per share growth and revenue growth (each weighted 25%) in fiscal 1995, Mr. Clement was entitled to a bonus equal to \$85,462 for 1995. In accordance with the restricted stock payment alternative, Mr. Clement elected to receive 40% of his 1995 bonus in Restricted Stock. Accordingly, he has received \$51, 278 of the 1995 bonus in cash and 3,010 shares of restricted stock shares for 1995. The shares of Restricted Stock will be nontransferable and subject to forfeiture for thirty months unless Mr. Clement satisfies certain service obligations to the Company.

The Company has provided long-term incentive to Mr. Clement through stock option grants. In January 1991, the Compensation Committee granted Mr. Clement options to acquire 250,000 shares pursuant to the Company's 1989 Incentive Plan. These 250,000 options have vested annually in increments of 50,000, beginning January 21, 1991. Because it made this option grant in 1991 with vesting occurring through the 1995 fiscal year, the Committee determined not to grant any additional stock options to Mr. Clement from fiscal 1992 through fiscal 1995.

Provisions of the Omnibus Budget Reconciliation Act of 1993 limit deductibility of certain compensation for the Chief Executive Officer and the additional four executive officers who were highest paid and employed at year end, effective for tax years beginning on or after January 1, 1994. The policy of this Committee related to this Act is to establish and maintain a compensation program that maximizes the creation of long-term value for stockholders. Action will be taken to qualify most compensation approaches to ensure deductibility except in those limited areas where the Committee believes that stockholder interests are best served by retaining flexibility of approach.

DIRECTORS MEETINGS, FEES AND OTHER MATTERS

The Company has standing Audit, Compensation, Executive and Nominating Committees of the Board of Directors. During the Company's fiscal year ended June 30, 1995, each nonemployee member of the Board of Directors received \$750 for each meeting of the Board of Directors, as well as committees of the Board on which he served, attended by such member. In addition to receiving \$750 for each meeting attended, nonemployee members of the Board of Directors (other than the Secretary of the Board of Directors) receive \$6,000 per year, payable quarterly in arrears, and the Secretary of the Board of Directors receives \$8,000 per year, payable quarterly in arrears.

The Board of Directors held five meetings during the past fiscal year. During this period, no incumbent director other than Mr. Luther attended fewer than 75% of the aggregate of (i) the total number of meetings of the Board of Directors during the period in which he was a director and (ii) the total number of meetings held by all committees on which he served during the period in which he was a director.

The 1991 Nonqualified Stock Option Plan for Nonemployee Directors (the "1991 Plan") provides for the granting to directors who are not employees of the Company (the "Nonemployee Directors") of non-qualified options to purchase Common Stock. The 1991 Plan is administered by the Board of Directors. A total of 173,000 shares of Common Stock have been reserved for issuance at June 30, 1995, upon the exercise of options under the 1991 Plan, subject to adjustment in the event of stock splits, stock dividends and similar changes in the Company's capital stock.

As of September 24, 1991, the date as of which the 1991 Plan was adopted by the Board of Directors, Nonemployee Directors were granted automatically options to purchase 500 shares of stock for each year of continuous service plus 2,000 shares. As of the date of the Company's Annual Meeting of Stockholders in each year that the 1991 Plan is in effect beginning with the Annual Meeting held on December 1, 1992, each Nonemployee Director who is elected or re-elected, or otherwise continues as a director of the Company following such Annual Meeting, will be granted an option to purchase 2,000 shares of Common Stock. However, no such options shall be granted to any Nonemployee Director who during the preceding 12 months missed 50% or more of the meetings of the Board of Directors and committees on which he served.

The option price per share for each option granted under the 1991 Plan is the fair market value of the Common Stock on the date of grant. Under the 1991 Plan, options are not exercisable until six months after the date of grant. The 1991 Plan will terminate on, and no options shall be issued after, the date of the annual meeting of stockholders in 2000, and any options outstanding on that date will remain outstanding until they have either expired or been exercised.

The Audit Committee is composed of Messrs. Crane and Johnson. The Committee is authorized to engage and discharge independent auditors; to review the fee, scope and timing of the independent audit and any other services rendered; to approve professional services rendered by the auditors; to review with the
